VISION

To be a transformative service provider for children and their families.

MISSION

To empower children and their families to thrive.

GUIDING PRINCIPLES

We believe empowered families are central to a child's development; therefore, we will provide support, resources, and advocacy where and when it is needed.

We value producing positive outcomes for our community; therefore, we are on a journey to constantly enhance our work.

We value integrity; therefore, we will continuously choose to do the right thing even when it is not the easiest option.

We believe we cannot do this work alone; therefore, we seek to leverage and deepen opportunities and partnerships to meet the needs of the children and families we support.

GOALS

Enhance Program Delivery and Accessibility	<i>Embrace opportunities and create systems that allow for programs to replicate, expand, operate, and innovate as dictated by the needs of the families and communities we serve.</i>
Amplify Organizational Impact	<i>Communicate the difference that we are making, how we made that difference, and why it is important in a way that elevates the organization</i>
Proactively Strengthen and Develop Our Workforce	<i>Become a sought after employment destination with a culture that retains employees.</i>
